ADDITIONAL INFORMATION

1. Do you want to cryopreserve sperm or embryos (circle one)? If embryo cryopreservation, please indicate if you would like heterozygotes or homozygotes cryopreserved.

2. What age are the mice you are providing for cryopreservation?

3. Animal Protocols

Provide the appropriate protocol number(s) for project obtained from the Harvard IACUC.

Note: For sperm cryopreservation, need two male mice and will provide 6 – 8 vials of sperm.

For embryo cryopreservation, need 10 female mice and will provide 4 – 6 straws with 20 – 25 embryos.

For Core Use Only:

Work Request/Case Number(s):
